

ABOUT THE COMPANY

Prestige Perfect Business (PPB Oman) is an established trading and engineering company headquartered in the Sultanate of Oman and registered under the Joint Supplier Registration System with the registration number JSRSOM36997. The company specializes in the supply of equipment and engineered materials to the Oil & Gas and Power sectors, and has progressively expanded its capabilities to serve a broader industrial and corporate customer base across the Sultanate.

Over the years, PPB Oman has diversified its business activities beyond trading to include engineering design, execution of industrial projects, and comprehensive material supply solutions. This integrated capability allows the company to act both as a procurement partner and as an execution contractor, depending on the scope and complexity of each client requirement.

In addition to direct supply and project execution, PPB Oman provides market intelligence and local support services to international partners. By combining technical know-how, local market access, and an established commercial network, the company enables the introduction of advanced technologies at competitive prices into the Omani market, while ensuring compliance with local content and procurement regulations.

Your Trusted Partner in Oman's Energy & Industrial Sectors.

VISION & MISSION

OUR VISION

To be the preferred and most trusted supply chain and engineering partner for the Oil & Gas, Power, and industrial sectors in the Sultanate of Oman, recognized for technical competence, commercial integrity, and consistent delivery on every commitment.

OUR MISSION

To deliver reliable equipment, materials, and project execution services to our customers, and to bridge international manufacturers with the Omani market through dedicated local support, transparent commercial practices, and competitive pricing. We are committed to building long-term partnerships that create measurable value for our clients, our principals, and the communities we serve.

CORE VALUES

The following principles guide every transaction, partnership, and project undertaken by PPB Oman:

Reliability

We honour our commitments on quality, quantity, and delivery timelines.

Integrity

We conduct business with full transparency and in strict compliance with applicable regulations.

Local Expertise

We leverage deep understanding of Omani procurement practices, end-user expectations, and regulatory requirements.

Customer Focus

We respond promptly to technical clarifications, commercial enquiries, and after-sales support needs.

SCOPE OF SUPPLY & SERVICES

PPB Oman maintains a comprehensive supply portfolio that spans electrical, mechanical, and instrumentation disciplines, together with corporate and promotional gifting solutions. Each category is supported by qualified vendors, technical documentation, and local logistics handling to ensure end-to-end delivery readiness.

► Electrical

Our electrical portfolio covers low- and high-voltage distribution equipment, lighting systems, explosion-proof fittings, and overhead-line maintenance materials suitable for industrial, hazardous-area, and outdoor installations.

- Cables & Accessories
- Air Conditioning / HVAC Systems (Supply & Installation)
- Explosion-Proof Items
- Electrical Fittings
- LED Light Fixtures
- Heat Shrink Sleeves
- Aggregate (Maronite)
- Earth Bit Assembly
- Cable Markers
- Light Poles & Light Fixtures
- Switchgears & Relays
- LV & HV Distribution Boards
- OHL Maintenance
- Control Panels
- Cable Glands & Cables

► Mechanical

Our mechanical scope encompasses piping components, structural steel, lifting and rigging gear, and industrial tools required for greenfield construction, maintenance turnarounds, and shutdown campaigns.

- Pipes & Flanges
- Socket Weld & Screwed Fittings
- Orifice Flanges
- Tanks (GRP & HDPE)
- Wire Ropes & Slings
- Industrial Tools
- Branch & Butt Weld Fittings
- Forged Fittings
- Stud Bolts, Gaskets & Seals
- Structural Steel Products (Beams, Chequered Plates, CR Sheets, HR Plates, Hollow Sections, GI Gratings, GI Sheets, MS Merchant Bars)
- Lifting Belts & Chain Blocks
- Safety Products

► Instrumentation

We supply field instrumentation and measurement devices from reputable international manufacturers, calibrated and certified for use in process and utility applications across the energy sector.

- Temperature Meters
- Conductivity Meters
- Multimeters
- Instrument Fittings
- Proximity Sensors

► Corporate & Promotional Gifts

Beyond industrial supply, PPB Oman offers customized corporate and promotional gifting solutions branded with client logos, suitable for events, employee engagement, and stakeholder outreach programmes.

- Corporate Gift Items with Logo
- Diaries
- Caps
- Flasks
- T-Shirts
- Bags
- And other customized promotional items

SECTORS SERVED

PPB Oman serves a cross-section of industries that underpin the Sultanate's economy, with a particular focus on the energy value chain. Our sector coverage reflects the depth of our supply portfolio and our ability to mobilize the right materials, manufacturers, and execution partners for each engagement.

Oil & Gas

We support upstream, midstream, and downstream operators and EPC contractors with mechanical, electrical, and instrumentation supplies compliant with oil-field specifications. Our scope covers routine maintenance, shutdown campaigns, and project-specific procurement, with full traceability of materials and manufacturer documentation.

Power

PPB Oman supplies equipment for power generation, transmission, and distribution projects, including LV and HV distribution boards, switchgears, cable systems, light fixtures, and structural steel products. Our offering addresses both utility-scale and industrial in-plant power requirements.

Industrial & EPC Projects

For industrial construction and EPC project teams, we provide an integrated supply chain covering structural steel, piping components, lifting gear, industrial tools, and safety products. Our engineering design and project execution capability allows us to deliver beyond pure material supply when scope demands it.

Corporate Sector

We extend our services to the corporate and institutional sector through customized promotional gifting solutions, supporting brand visibility, employee engagement, and stakeholder relations for clients across industries.

JSRS Registered Supplier

Registered under Oman's Joint Supplier Registration System (JSRS OM36997), PPB Oman is eligible to participate in tenders and enquiries issued by registered buying organizations, ensuring procedural compliance and rapid vendor onboarding.

01

Local Market Intelligence

Our team provides international partners with practical insight into Omani procurement practices, end-user expectations, local content considerations, and competitive pricing benchmarks — reducing time-to-market for new technologies.

02

Comprehensive Supply Portfolio

A single-vendor scope spanning electrical, mechanical, instrumentation, and corporate gifting categories simplifies procurement, reduces transaction overhead, and ensures consistency in documentation and delivery standards.

03

Dedicated Technical & Commercial Support

We respond promptly to technical clarifications and commercial enquiries, manage vendor coordination, and oversee local logistics handling — enabling our clients and principals to focus on their core engineering and operational priorities.
